PROGRAM

Dr. Ken Cohen

“Healthcare Reform 2009”

Dr. Cohen is the one of our local physicians and many of us go to him. So it was great to get this update on our healthcare system. Currently 16% of our Gross Domestic product (GDP) is spent on healthcare...that compares to 11% for the closest country. It equates to \$7000/person...by state Utah is at \$3900/person.

Currently of the total spent...it is estimated \$700B is on wasted care with no benefit in health outcomes.

He mentioned the Obama healthcare proposals focused on healthy lifestyle and making those employer proactive.

So, currently in the U.S. we have "partisan" division, and with any healthcare reform...some will profit from no change.
